

Steps of Assignments

Step 1: Understand the Problem Statement.

Step 2: Explore the Data

Step 3: Think for a title for the Project

Step 4: See, checks the datatypes, null values, duplicate values and solve the problem if exists.

Step 5: List all the KPIs and at first get all the values needed on the card.

Step 6: Make the Charts needed.

Step 7: Edit all to make beautiful visuals.
